WHAT IS SUPPORTED SELF-PUBLISHING?

Supported self-publishing represents a smooth, efficient path to turning your manuscript into a published book, combining the best elements from all areas of the publishing spectrum. With supported self-publishing, you receive the same help that a traditional publisher would provide authors preparing a book for publication, such as formatting, editing, and consultative advice on your book's front and back covers. You also get access to distribution networks after your title is published so you can sell copies of your book. In addition, you retain total control over your book's content without the headaches of handling all the technical aspects on your own.

With our supported self-publishing model, you work with an experienced team of consultants whose job is to assist authors with their manuscripts each and every day. Our team has the digital know-how and publishing process expertise to be the right guide on your path to becoming a published author. We never forget that it's your book and that we are here to support your vision of how you want it to read, look, and feel.

WHO IS PARTRIDGE INDIA?

We have refined our services to be entirely focused on authors and their books. Our experience and expertise enable us to provide authors with all the tools needed to publish a book that looks professional and ready for the marketplace.

Advancements in e-books and electronic distribution have created a whole new world for authors to explore.

BECOMING A PARTRIDGE- PUBLISHED AUTHOR

Becoming a Partridge-published author starts with having a manuscript. After you've finished writing your manuscript, contact us to speak to a Partridge India Publishing Consultant about the goals you envision for your book, and he or she will help you choose your preferred publishing services package to help you achieve those goals, along with any add-on services you may need. Pay for your chosen package using our available payment options, sign the agreement form, and then submit your manuscript and other required materials.

The next step involves you reviewing the galley proofs we send you, making any necessary corrections, and then sending them back to us. Lastly, we release your finished book to a worldwide audience, available for sale through Amazon, Flipkart, and other online retailers!

We work with books of various topics, including children's literature, poetry, memoirs, romance, sci-fi/fantasy, and business. This versatility makes us a top choice for authors wishing to get their manuscripts out to the reading public. It has never been a better time for authors to publish their work, and Partridge India wants to make sure you get to enjoy every moment of it.

Partridge India offers four different publishing packages. The variety of packages helps ensure that you have the publishing experience of your choice, at a level that matches your budget and the scope of your marketing vision as a published author.

Publish your book with our Topaz package to reach out to readers with a paperback and e-book format of your book. We will even help you take your book marketing online through a personalised website about you and your book.

The Amber package is for authors who believe in the power of marketing. It provides access to an extensive database of TV, radio, and print media contacts, turning your book's release into a local community media event. The Diamond package builds upon the Amber services, providing expert guidance on your title, back cover copy, author bio, and keynote to make it more marketable. In addition, Diamond offers a oneweek advertising campaign on Facebook and your press release sent to more media outlets.

Our deluxe package, Platinum, is for authors who want even more advanced design, production, and marketing services. In particular, this package also includes a book video uploaded on YouTube, so potential readers can watch a preview of your book.
